

SAFE ACTIVE MOBILITY IN CITIES:

A selection of WHO resources

IN THE SPOTLIGHT:

World Health Organization ACTIVE technical package

DATE OF PUBLICATION: 2018

Topic: This action framework provides an overview of how to develop (or strengthen), implement, assess compliance with, and evaluate, the effectiveness of a healthy public food procurement and service policy. It is intended for use by government policy makers or programme managers working on public food procurement or service, at either a national or a subnational level, including at regional, provincial and city levels. Governments may tailor this action framework to develop a feasible policy scope that meets their needs and local context.

Cyclist safety: an information resource for decision-makers and practitioners

DATE OF PUBLICATION: 2020

Topic: This document describes the magnitude of cyclist death and injury, the key risk factors, and effective interventions. The document stresses the importance of a comprehensive, holistic approach that includes legislation, enforcement and behavioural measures specifically for cyclists; design of the built environment; as well as integrating cyclist safety into overall road safety and transport strategies. It also draws attention to the benefits of cycling, which should be promoted as an important mode of transport given its potential to improve health and preserve the environment.
